B E O R I G I N A L

W

hen the world zigs, you prefer to zag.

It shows up in your passion for enjoying the good life—with all the elements that stimulate the senses. So it's understandable why your next motorhome needs to express your unique sense of style, individuality and adventure.

That's the 2006 Sportscoach Encore.

Everything about Encore says you're moving up. Standing out. Living by your own rules. Valuing the finer things in life.

experience
S P O R T S C O A C H

And because Encore is from Sportscoach, you can count on rewards far surpassing a coach of its class—everything from admiring looks to plenty of bragging rights.

Euro-style mirrors provide a distinctive look and a confident rear view.

Designed for safety, comfort and driver enjoyment, the cockpit features easy-access controls and eye-appealing chrome trim around the gauges. The exclusive Site Rite™ dash angles a full 20 degrees downward at the windshield, creating better road visibility and reduced front blind spots.

The soft, luxurious, two-tone ultra-leather/suede **captain's chairs** have six-way power controls that allow you to customize the settings to your liking. With your protection in mind, the three-point safety harness is integrated into the seat for improved safety and comfort.

EVERYTHING HERE WILL MOVE YOU

Because you're no stranger to motorhomes, a coach has to be truly outstanding to favorably impress you. That's Encore. We crafted every inch of the interior to enrich your experience, rewarding you with amenities and grandeur to satisfy your desires in a motorhome.

Whether it's the leather Euro chair with ottoman, the residential Camel Back sofa or the ceramic tile floor and sculpted carpets, Encore moves you in the right direction. Discover the joy Encore provides by taking a walk-through and a test drive.

With a choice of five bold, attention-getting full-paint exteriors, Encore is sure to gain admiring glances wherever you travel.

But below the great looks lay some serious engineering. Like heavy-duty baggage doors with two-stage struts for easy access.

When extended, the slide-outs give you an exceptionally large living area with ample room to comfortably move around. Plus, seat belts are designed into all fixed seating locations for your travel safety.

impressive L I V I N G

The spacious shower with marbled surround and designer bath fixtures looks like a picture from a show home.

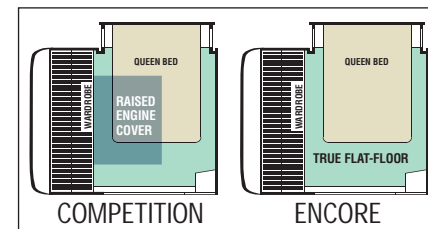

From its residential headboard to directional reading lights, from the flat floor to the space-expanding slide-out, the bedroom (shown here in Summit Maple) is as elegant as it's practical. You'll also enjoy the concealed pull-out flat screen TV which swivels for easy viewing.

IT'S LIKE BEING BUMPED UP TO FIRST CLASS

Nothing improves your day like a pleasant surprise. Buying a coach ticket and getting bumped up to first class. Ordering dinner and receiving dessert on the house. Encore is like that. It moves you up to a higher level of style, features and convenience than other coaches in its class. Like a deep, 38-inch living room slide-out for oodles of living space. A truly flat bedroom floor that provides full headroom all the way around the bed. An oversized passenger

seat with power foot rest. The list goes on. Fact is, Encore gives you two great options: Bragging to your friends about your wise investment or going no further than a knowing smile when they ask how much you paid.

Encore's **flat-floor bedroom** is an industry first. It provides up to 10 inches of additional headroom around the bed. So you can enjoy easier access to the wardrobe—and no stubbed toes or head bumping the ceiling.

Spacious, mirrored wardrobe closets are lined with cedar to keep your clothes smelling fresh and new.

The raised panel cabinet doors, embellished with designer antique bronze hardware, add that extra touch of distinction to your coach.

Sometimes the best way to communicate is to leave people speechless — jaws dropped in total amazement. Encore is all too willing to comply. That's because we gave it features and a look to surpass all other coaches in its class. No surprise there. We're the only coach manufacturer focused entirely on building diesel motorhomes. So even if you fail to gain kudos from your golf game, you're sure to get people's attention with your Encore.

LEAVE THEM SPEECHLESS

Encore gives you cavernous **basement storage**, thanks to the Freightliner raised rail chassis and three huge, insulated and heated pass-through compartments.

Enjoy your favorite shows, movies and home videos on the **30-inch, flat-screen LCD TV** (40 TS). The available **home theater system** provides a DVD/VCR Combo and "Cinema" surround sound.

PERFORMANCE PLATFORM

AT 70 MPH, YOU'LL STILL BE TURNING HEADS

The 7.2 liter Cat engine boasts 330 hp and 860 lb.-ft. of torque — all the power needed for steep inclines and easy passing on highways.

Sharp, 55 degree wheel cut enables superior maneuvering in tight spaces.

Dual side fuel fills allow refueling from either side of the coach for added convenience.

The bell crank helps eliminate “bump steer,” so you needn't fight to keep control when the front wheels hit a rut.

Standard full air ride suspension provides a comfortable ride with reduced body roll.

Allison MH-3000, 6-speed transmission smoothly transfers maximum power from the engine to the wheels.

The 10,000 lb. tow hitch has enough capacity for towing a full-sized SUV or a trailer full of toys.

Freightliner's double-stacked 18-inch high steel frame rails are the tallest, most sturdy in the industry.

Large 22.5-inch wheels look impressive and help provide a smooth, comfortable ride.

To enjoy outdoor adventures on your own terms, you need a motorhome that can meet — or exceed — the challenges of the open road and the campsite. Encore does.

Sturdy foundation

Encore rides on the Thoroughbred™ Performance Platform, developed by Sportscoach® and Freightliner.™ The platform starts on a laser-leveled stage to ensure a true and level surface for a much more precisely assembled coach. Plus all steelwork has a weather-resistant finish. This results in the best performance and durability in its class.

Superior construction

We go the extra mile to make sure each coach is sturdy and dependable. Cabinets are mounted into steel backers instead of paneling. Each windshield is installed with automotive adhesive and sealant. Plus, electrical wires are grouped in a color coded automotive wiring harness for safety, and ease of service.

Rigorous testing

All water, gas and electric lines are multiple tested well beyond Recreation Vehicle Industry Association code requirements. In addition, each coach undergoes a 57-point inspection, plus extensive rain booth and road testing to make sure your coach is ready for all of your adventures.

STANDARD FEATURES

CHASSIS/ENGINE/SUSPENSION
