CROSS COUNTRY PATHFINDER ENCORE ELITE

ready to take on any CHALLENGE

Enjoying real, diesel-driven outdoor adventures calls for a motorhome that meets — and exceeds — the challenges of the open road and the campsite. Cross Country does.

Sturdy foundation.

Pathfinder rides on the Thoroughbred™ Performance Platform, developed by Sportscoach® and Freightliner™. The platform starts on a laser-leveled stage to ensure a true and level surface for a much more precisely assembled coach. Plus all steelwork has a weather-resistant finish. This results in the best performance and durability in its class.

Superior construction.

We go the extra mile to make sure each coach is sturdy and dependable. Cabinets are mounted into steel backers instead of paneling. Each windshield is installed with automotive adhesive and sealant. Plus, electrical wires are grouped in a color coded automotive wiring harness for safety, and ease of service.

Rigorous testing.

All water, gas and electric lines are multiple tested well beyond RVIA (Recreation Vehicle Industry Association) code requirements. In addition, each coach undergoes a 57-point inspection, plus extensive rain booth and road testing to make sure your coach is ready for all your adventures.

Standard full air ride suspension provides a comfortable ride with reduced body roll.

Dual side fuel fills allow refueling from either side of the coach for added convenience.

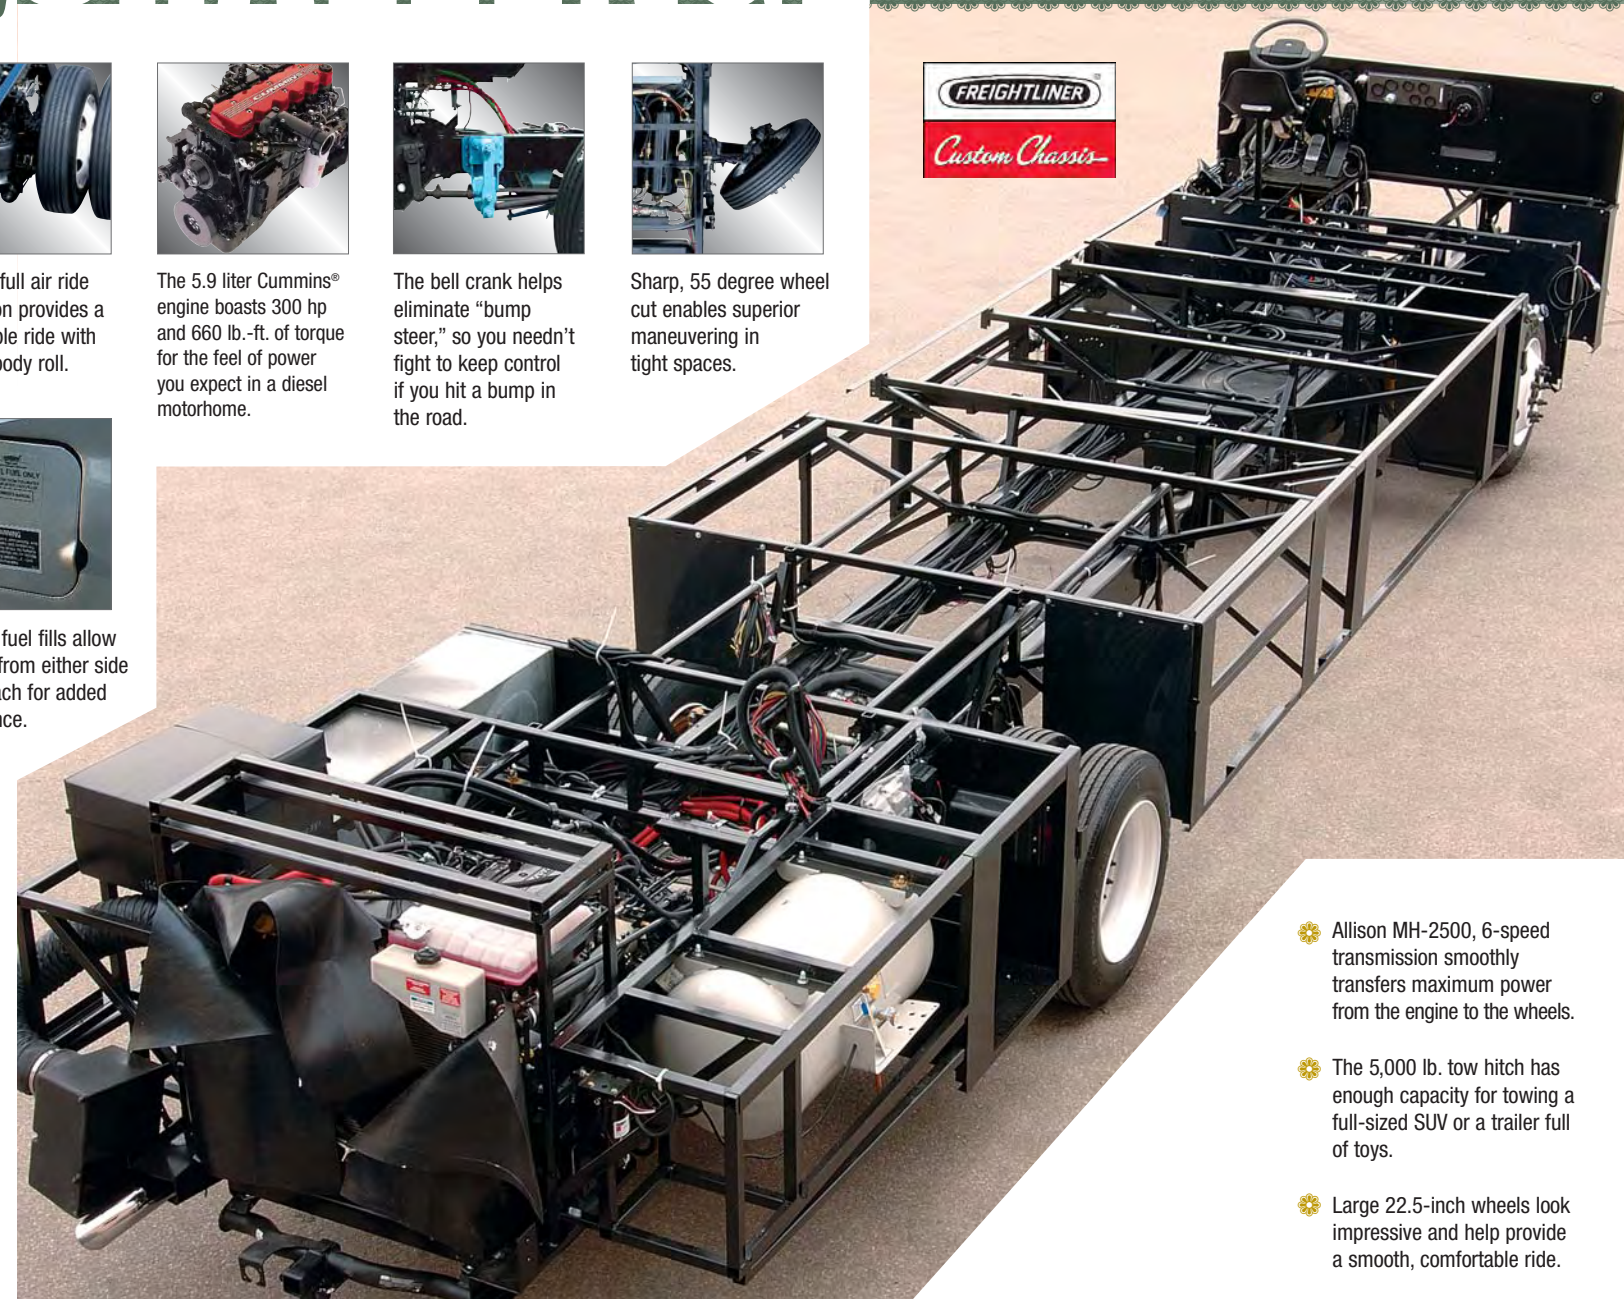

The 5.9 liter Cummins® engine boasts 300 hp and 660 lb.-ft. of torque for the feel of power you expect in a diesel motorhome.

The bell crank helps eliminate “bump steer,” so you needn’t fight to keep control if you hit a bump in the road.

Sharp, 55 degree wheel cut enables superior maneuvering in tight spaces.

☀ Allison MH-2500, 6-speed transmission smoothly transfers maximum power from the engine to the wheels.

☀ The 5,000 lb. tow hitch has enough capacity for towing a full-sized SUV or a trailer full of toys.

☀ Large 22.5-inch wheels look impressive and help provide a smooth, comfortable ride.
