CRESCENDO

Elegant Interior...

The story begins with Gulf Stream's innovative product development team. The objective was defined:

"Offer a 330 diesel motorhome with two slides, 36' in length with an elegant interior- at the very best price possible."

It is clear that diesel motorhomes perform better, longer and maintain their value far greater than gas-powered motorhomes.

They also cost much more...that is until now...

INTRODUCING THE CRESCENDO

No corner was cut in the development of this revolutionary product. Lean manufacturing concepts were applied to remove all wasteful processes. In addition, we have worked with our vendors to achieve large savings and we have passed them along to the RVer.
