COCKPIT

The hardest place to leave may be the
ONE YOU'RE SITTING IN.

As relaxing as sitting in this seat can be, someone has to steer. It's true. But don't worry, the cockpit offers an incredibly smooth ride. Guess that's what a sturdy chassis will do. The Allegro's roomy dash is engineered to make its controls easy to access and the one-piece windshield gives the driver and passenger a crystal clear, unobstructed view of the road. There's also an optional TruCenter Steering System, and both forward seats can be swiveled around to add extra seating in the living room.
