

You'll feel as if you're on tour. Then again, you are on tour.

Who ever said rock stars should have all the fun? Why can't you travel across the map, city to city, state to state, despite the fact you're not in a band? In a Tiffin Allegro Bus, there's really nothing to stop you. With its capable diesel engine, power will never be a problem. And with standard amenities like Ultra leather[®] upholstery, surround sound stereo with concealed speakers, and spacious refrigerator/freezer, comfort shouldn't be an issue either. Just like every other Tiffin motorhome, it's backed by one of the best warranties around. So you can travel like a rock star.

A very sensible, together rock star.

TIFFIN

ALLEGRO BUS

LIVING AREA

One day you may refer to your house as your
HOME AWAY FROM HOME.

DESERT SAND

ESPRESSO INTERIOR
NATURAL MAPLE CABINETS

The living area of the Allegro Bus, with standard seven-foot ceilings, was designed to provide comfort by giving you room to roam. After all, the Allegro Bus offers an unsurpassed level of storage. And with its new Expand-an-Island enhancement in select models, counter space has been increased in the already massive galley. Built-in side tables at the end of the sofa provide a convenient spot to put your drink and store your remote controls. A tile aisle, spanning from the cockpit to galley, cuts down on excess dirt hitting the carpet, and a central vacuum picks up any unwanted mess.

ALLEGRO BUS

COCKPIT

Deciding who drives has officially become A CONTEST WORTH WINNING.

You are the master of all you survey. Well, not really. But when a driver and passenger sit in Ultra leather Flexsteel® seats, gazing at breathtaking, unobstructed views through the large one-piece windshield, they'll sure feel that way. Also, the dash is newly redesigned, offering a color rear monitor, computer tray that allows for ample leg room while in use, Jensen dash radio with steering wheel remote and optional Sirius satellite radio. In case there's a need for extra seating in the living area, simply unlock and swivel the cockpit seats around and, voila, a perfect spot to enjoy your standard surround sound system, automatic satellite dish, and optional 32" LCD TV.

BEDROOM

Just when you finally get
enough room to toss and turn,
YOU SLEEP LIKE A LOG.

This is one bedroom with plenty of space and amenities. In addition to numerous overhead cabinets, there's additional storage in a chest of drawers with built-in laundry hamper. The mirrored, cedar-lined closet comes with an elegant design that adds a more spacious feeling. Overhead reading lights, standard 20" flat screen TV, and an on/off switch for the generator located next to the optional king size bed ensure a comfortable, relaxing experience.

ALLEGRO BUS

BATH

You're on vacation.
Shouldn't it feel like one?

The Allegro Bus bathroom features a vanity that joins the bedroom and bathroom seamlessly, providing both spaces with added roominess without sacrificing privacy. All lighting and plumbing fixtures are of the highest quality, as are all the fiberglass parts, which Tiffin manufactures itself. This ensures the most stringent quality control.

Each Allegro Bus comes standard with attractive exterior full body paint, taller doors that swing out under the galley slide, flat slide out trim, and a Sirius® satellite ready connection.
