

WINDSPORT 07

Class A Motorhome

FW Four Winds
INTERNATIONAL

Above: Shown with Tandem Taupe interior, Cherry cabinetry and jackknife sofa.

Top, middle and lower right: Model 31H shown with Ebony Reflection interior and Maple cabinetry.

The Windsport Class A motorhome offers the perfect blend of world-class comfort and contemporary style. With a choice of innovative floorplans, you'll find a model to meet your needs, tastes and lifestyle.

Once you experience the Windsport, nothing else quite measures up. In comfort. In quality. And in value.

The Windsport is designed to meet a wide range of lifestyle needs—from the casual to full-time recreational vehicle enthusiast. These versatile double slide-out models feature a spacious living area, fully equipped kitchen, cozy bedroom and bath area with all the conveniences of home.

For example, Model 32E is a triple slide-out floorplan packed with great amenities. They include a hide-a-bed sofa, L-shaped kitchen, side aisle hallway and full bath with two entry doors.

All Windsport motorhomes are built to meet high quality standards—from the inside out.

IMPORTANT:

Towing capacity may vary by chassis model, floorplan, options and loading of the vehicle. This may result in a towing capacity which is less than the maximum capacity of the hitch. Do not exceed the vehicle's Gross Combined Weight Rating (GCWR), or the hitch rating. A separate functioning brake system is required for any towed vehicle or trailer weighing more than 1,000 lbs. (450 KG) when fully loaded.

DRY WEIGHTS:

Based on standard features; optional equipment not included. Net carrying capacity (NCC) determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight, (GVWR) and includes fluids, options, and cargo. Liquid capacities and weights are approximations only.

WARNING:

This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing, and towing instructions.

VEHICLE LOADING:

Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreation vehicle.

Product information, specifications, and photography in this brochure were as accurate as possible at time of printing. Photographs may contain some features that are optional on your vehicle. Since we continually strive to improve our products, actual products may differ. Prices and specifications are subject to change without notice. All capacities are approximate and dimensions are nominal. Some features or options may be different or unavailable in Canada.
