MONACO®

DRIVING YOUR DREAM.

By now, you've learned that the real joy in life comes not from things, but from experiences. Climbing the dunes at Lake Michigan. Making a pilgrimage to all the old ballparks in America. Taking your family to... well, just about anywhere U.S.A. It's the experience that matters. And with the feisty 2009 Covina Sprinter, there's virtually no place you can't go. Comfortably. Safely. And as easily as driving a car. The all-new Covina from Monaco. Who's up for Alaska?

A MOVABLE FEAST.

Hungry for value? You won't believe all the goodies tucked inside the Covina. This versatile Class C serves up top-quality appliances, solid surface countertops, two-tone hardwoods, and halogen lights throughout. And that's just the first course. You'll also enjoy a beautiful LCD television and DVD player. A whole coach water filtration system. Lots of easy-to-reach storage, both inside and out. And an impressive list of high-end options like a roof skylight with shade, satellite radio, and more. Mmmm.

Choosing the Covina was easy. Now, it's time to make it your own. For 2009, our designers are pleased to present a stunning array of standard and optional decors. But don't worry. Even if you end up flipping a coin, you always win with Monaco.

¹Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner's manual for further towing information.

²All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

³Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated. Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Monaco Coach provides a weight sticker on each unit we produce which includes that unit's tank capacities and approximate weight.
