12-month/15,000-mile basic warranty; 36-month/36,000-mile limited warranty on structure; 10-year limited parts & labor warranty on roof skin⁷	\$	\$	\$

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
 - The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
 - Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
 - Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
 - Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
 - See separate chassis warranty.
 - See your dealer for complete warranty information.
- NA Not Available
 \$ Standard
 0 Optional
- Not all items available in combination. See dealer for details.
- Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available at printing.

RUNNING BOARDS Stylish steps make entering the cab easy and help keep your Navion clean.

WEB TRUELEVEL Eliminate tank-level guesswork with our exclusive TrueLevel™ holding tank monitoring system. It incorporates detector cells that determine liquid levels from outside the tank. No probes means no more corrosion, just accurate readings, time after time.

EXTERIOR SERVICE CENTERS
The exterior service centers house water, drainage facilities and the available exterior wash station. Electrical hookups can also be found here, including a power cord with the QuickPort™ service connection hatch (Not available on 24J shown here). This hatch allows you to close the compartment door even when connected to hookups at the campground.
