DURA-SHINE SEALENTS

RECREATIONAL VEHICLE

7 (SEVEN) YEAR LIMITED WARRANTY

Nº 20061

DURASHINE PAINTSHEILD - DURA-SHINE SEALENTS INC. hereby guarantees to the owner of the registered vehicle listed herein that the treated surface of their new recreational vehicle will retain it's high luster and shine from date of purchase and is enforceable for seven (7) full years from date of purchase. Should weather-induced fading, oxidation, or loss of gloss damage the original high gloss finish, DSS will repair such conditions up to a maximum of \$25,000.00 completely free of charge over the lifetime of this warranty. DSS reserves the right to repair any such damage through professional detailing prior repainting any surface.

DURA-SHINE FIBERSHIELD- DURA-SHINE SEALENTS INC. hereby guarantees to the owner of the registered vehicle listed herein that their new recreational vehicle will remain free of permanent stains from the date of application and is enforceable for seven (7) full years from the date of purchase. Should permanent staining occur to the treated interior carpet or upholstery of the new owners recreational vehicle, DSS will repair such condition without charge of any kind to the recreational vehicle owner over the lifetime of the warranty. DSS reserves the right to attempt to remove any stain through professional cleaning prior to the replacement of any fabric.

ELIGIBILITY- Vehicles eligible for this warranty are undamaged, current model year, previously untitled recreational vehicles with up to a maximum of 10,000 miles on the odometer at the time of application. Coverage will be extended to vehicle of the previous model year through June 30th which otherwise meet the above criteria.

OWNER'S RIGHT TO TRANSFER- The new recreational vehicle owner shall have the right to transfer to the first subsequent owner of the vehicle. To complete the transfer of the warranty, the first subsequent owner must complete and sign a letter authorizing transfer and submit it along with the \$125.00 Transfer Registration Fee, to the DSS office within 30 days from the date of purchase by the first subsequent vehicle owner.

VEHICLE OWNER REQUIREMENTS- Vehicle owner is responsible for maintaining the vehicle by following the maintenance procedures for interior and exterior care as described on the attached sheet. DSS IS NOT OBLIGATED OR RESPONSIBLE FOR GENERAL CLEANING AND MAINTENANCE. REGULAR CLEANING AND CARE IS NECESSARY. ALL MAINTENANCE RECORDS SHOULD BE KEPT.

LIMITATIONS OF COVERAGE: This warranty does not cover existing damage prior to the application of the DSS products or to surfaces not treatable with the DSS products such as semi-gloss or non-glossy paint, headliners, seat belts, steering wheels, or as determined by the design of the vehicle; damage caused by road hazards, vandalism, collision

similar accident; fire or other natural casualties; rusting of metal; modifications or alterations of the factory's original painted finish (i.e. repainted surfaces, after-market pin striping, etc.); defective paint (i.e. peeling or chipping of paint or clear coat, paint separating, cracking or flaking, or as determined by independent inspection or factory bulletins); chips or scratches caused by everyday use or other causes or damage caused by neglect or abuse; stains or damage caused by dye, ink, tar, gum, coffee, or paint; bleach, acid, or other caustic or corrosive substances; burns, rips, tears, shredding or other interior fabric damage resulting from animals or pets, vandalism, or other causes; abnormal use or damage due to neglect or abuse; surface wear or natural wear due to extended use.

REPAIR OBLIGATIONS: DSS has sole discretion in determining and implementing repair procedures. Such service will be performed with reasonable promptness and quality. DSS's liability is limited to the repair costs of the area of repair as pre-approved by DSS only. If warranty covered damage has occurred, DSS will pay only for the repair of the Damaged portion of the vehicle. Interior attached fabric surfaces or exterior body paint.

Claim Procedure: A claim may only be paid to the original owner or the first subsequent owner during the warranty period with a properly registered and/or transferred warranty and Transfer Fee. Damage, once begun, may greatly worsen unless repairs are promptly made. To reasonably minimize any damage that might occur, a claim must be filed within 30 days from the onset of damage by notifying the DSS Representative at the phone number or address listed below. A COPY OF THIS WARRANTY CERTIFICATE MUST BE FORWARDED TO THE DSS REPRESENTATIVE LISTED BELOW WITHIN 30 DAYS FROM THE EARLIER OF: APPEARANCE OF DAMAGE COVERED BY THIS WARRANTY OR THE TIME WHEN THE DAMAGE COULD HAVE BEEN DISCOVERED UPON REASONABLE OBSERVATION OR INSPECTION. FAILURE TO FORWARD A PHOTOCOPY OF THE WARRANTY WITHIN 30 DAYS VOIDS THIS WARRANTY. ANY REPAIR UNDERTAKEN WITHOUT EXPRESS, WRITTEN AUTHORIZATION FROM DURA-SHINE WILL NOT BE REIMBURSED. ALL MAINTENANCE RECORDS MUST BE PROVIDED.

TERMS AND CONDITIONS OF THIS WARRANTY ARE STATED ABOVE AND CANNOT BE ALTERED UNLESS IN WRITING BY DURA-SHINE SEALENTS, LLP. This warranty specifically excludes DSS from liability for incidental or consequential damages occasioned by use of the products. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exception may not apply to you. No express rights are given under warranty except for those specifically described herein. This warranty gives you specific legal rights and you may also have other rights that vary from state to state.

REDUCE ACCIDENT RISK CAUSED BY BLOWOUTS & TIRE FIRES

One of the top 5 RV claims to US Insurance Companies is for damage caused by **TIRE BLOWOUTS!**

Few things can ruin a road trip faster than having a tire blow out while traveling at highway speed. With the added concern of vehicle load and weight distribution, proper tire inflation is more critical for RVs than most other types of vehicles. SmartTire RV is an early warning system designed to alert you of a tire related problem before it becomes dangerous. At the push of a button, the system will provide you with real-time tire status information and automatically warn you if your tires become under-inflated.

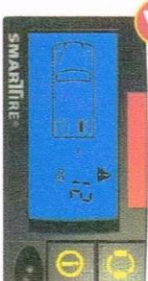

AVOID THE INCONVENIENCE OF BEING STRANDED WITH A FLAT

With SmartTire RV on board, you can check your tire pressure from the convenience of your driver's seat.

Checking your tire pressure has never been easier. State-of-the-art electronics alert you before you get a flat.

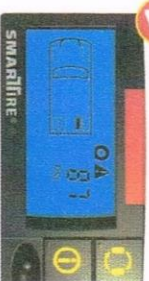

PRESSURE DEVIATION ALERT

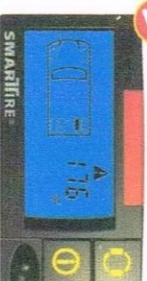

The Pressure Deviation Alert is the first warning of an under-inflated tire. When tire pressure falls below the first programmed level, SmartTire RV alerts the driver with a bright warning light and audible alarm.

CRITICAL LOW PRESSURE ALERT

The Critical Low Pressure Alert warns the driver when tire pressure falls below the second programmed level. This audible and visual warning alerts the driver to take immediate precautions.

HIGH TEMPERATURE ALERT

The High Temperature Alert warns the driver when the temperature exceeds a programmed level. This can indicate a serious tire problem or possibly a brake problem that requires immediate attention.

TEMPERATURE COMPENSATION

No matter how hot your tires are or how long you have been on the road, SmartTire RV will always provide you with accurate pressure readings and warnings.

MAXIMIZE FUEL ECONOMY & TIRE LIFE

SAFETY

Proper tire inflation is critical to the driving performance of an RV. Stopping distances and vehicle handling are both determined where the rubber meets the road. With SmartTire RV on board, you will be able to keep your tires properly inflated in order to maximize vehicle performance no matter what the weather condition or situation.

ECONOMY

Proper tire pressure helps preserve tire life and can save on fuel costs. Real-time tire pressure information will help you keep your tires rolling as economically as possible.

PEACE OF MIND

RV tire pressure can be difficult and inconvenient to check before every trip. Let SmartTire RV do the checking for you. After all, your RV is more than just a vehicle, it's your home. Keep it safe with SmartTire.

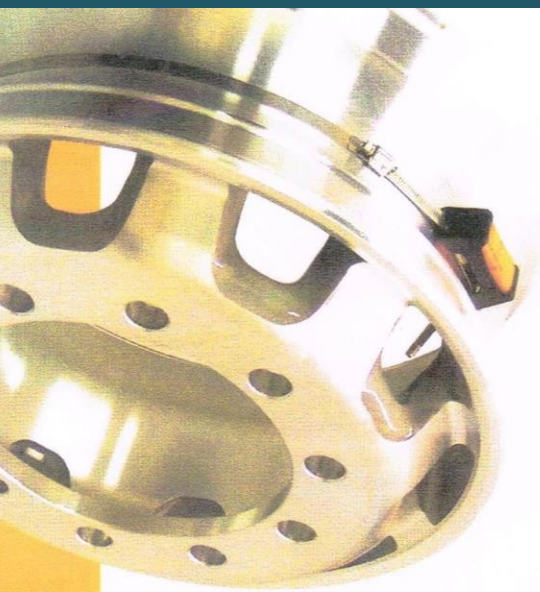

Monitor your tires, even on your TOW-BEHIND

Proper tire inflation can be difficult to detect on a vehicle as large as an RV, and even more difficult on a towed vehicle or trailer. Most people do not notice that a tire of a tow-behind is at risk until they see smoke...and then it is too late. By simply adding four pressure sensors to your tow-behind, SmartTire RV can monitor a towed vehicle or trailer in addition to your RV.

Peace of mind on the road.

SMARTTIRE RV

CHECK TIRE PRESSURE & TEMPERATURE WITH EASE

Drive with confidence knowing that SmarTire RV is on board.

- 1 Display: mounted in view of the driver provides real-time tire information. If a tire problem occurs, both an audible and visual warning alert the driver to the condition.
- 2 Receiver: can monitor up to 20 wheel positions and is able to handle the most complex RV and towed vehicle configurations.
- 3 In-wheel Sensors: constantly monitors tire pressure and temperature. Tire data is transmitted wirelessly to the receiver.
- 4 Towed Vehicle Monitoring: towed vehicle or trailer tires can be monitored by simply adding low pressure sensors to the wheels.

SmarTire RV provides everything you need to monitor the tires of your RV. Add SmarTire low pressure sensors to your towed vehicle and monitor its tires also.

MONITORING COMPONENTS*

GRAPHIC DISPLAY

Alerts: Audible and flashing alert for Pressure Deviation, Critical Low Pressure and High Temperature
Size: 2.8" x 1.09" x 1.65"
(72mm x 28mm x 42mm)

SENSOR / TRANSMITTER

High Pressure: 10 to 160 psi cold inflation
Low Pressure: 10 to 65 psi cold inflation
Battery Life: 7 years under normal driving conditions

RECEIVER

Max Wheels: Monitor up to 20 wheels simultaneously
Powered By: Connects to vehicle DC power
